

METALLURGIA—Index to Volume LXIII

Published by the Kennedy Press Ltd., 31 King Street West, Manchester 3

DECEMBER—JUNE 1961

	Page		Page		Page
LEADERS					
Much Ado About Nothing ..	155-156	Cutting Plates for Transformer Cores. Automatic Machine Installed by Ferranti ..	140-141, 144	Physical Properties of Metals, Hot Hardness Values in Relation to the. By E. R. Petty and H. O'Neill ..	25-30
Record Nickel Consumption ..	1-2			Plastic Deformation and Strain Ageing on the Transition Temperature of Mild Steel, The Effect of. By T. R. G. Williams and D. H. Hughes ..	233-237
Steel and Nuclear Power ..	103-104	F		Precipitation-Hardened Nickel-Chromium Alloys, Structural Factors Affecting the Creep Properties of. By W. Betteridge ..	79-85
Steel in an Expanding Britain ..	211-212, 222	Fracture Surfaces, Some Results of the Examination of Aluminium Alloy Specimen. By P. J. E. Forsyth and D. A. Ryder ..	117-124	Pressing and Sintering of Nickel Brasses. By J. Wilcock and R. J. Woolfall ..	167-173
Textbooks and Teaching ..	263-264, 317-318	Forming of Aluminium Sheet, Developments in the. By G. W. Eldridge ..	71-77		
ARTICLES					
A					
Adhesion of Sprayed Molybdenum, The. By R. T. Allsop, T. J. Pitt and J. V. Hardy ..	125-131	Hot Hardness Values in Relation to the Physical Properties of Metals. By E. R. Petty and H. O'Neill ..	25-30	Sintering of Nickel Brasses, Pressing and. By J. Wilcock and R. J. Woolfall ..	167-173
Aluminium, The Scope for Further Study of Anodic Oxide Films on. By G. C. Wood ..	221-222	How are we to get more from our Steels? By G. O. H. Sjogren ..	217-220	Spark Erosion Machining Equipment, New Range Introduced to British Industry ..	137-139
Aluminium Alloy Plate for Aircraft, Stress-Relieved. By A. J. Clark, A. R. Martin and L. E. Steele ..	55-64	Hyper-Eutectoid Steel, The Specific Heat of. By B. Gregory and H. J. Bray ..	276-278	Specific Heat of Hyper-Eutectoid Steel, The. By B. Gregory and H. J. Bray ..	276-278
Aluminium Alloy Specimen Fracture Surfaces, Some Results of the Examination of. By P. J. E. Forsyth and D. A. Ryder ..	117-124	I		Sprayed Molybdenum, The Adhesion of. By R. T. Allsop, T. J. Pitt and J. V. Hardy ..	125-131
Aluminium and its Alloys in 1960. Some Aspects of Research and Technical Progress. By E. Elliott ..	65-70, 105-114	Indium in the Metal Industries, Rare. By M. Schofield ..	231-232, 237	Steels, How are we to get more from our? By G. O. H. Sjogren ..	217-220
Aluminium-Copper Alloys Containing 3 and 4.5 wt.% Copper, The Effect of Manganese on the Tensile Properties of Quenched and Aged. By V. B. Ghate and D. R. F. West ..	269-272	L		Strain Ageing on the Transition Temperature of Mild Steel, The Effect of Plastic Deformation and. By T. R. G. Williams and D. H. Hughes ..	233-237
Aluminium-Copper-Magnesium-Silicon Alloys at 500° C. The Constitution of Quaternary. By D. P. Smith ..	223-231	Liquid Slags, Physical Properties and Constitution of. By B. T. Bradbury and D. J. Williams ..	19-24	Stress-Corrosion in a High-Purity Aluminium-Zinc-Magnesium Alloy, The Mechanism of. By E. N. Pugh and W. R. D. Jones ..	3-6
Aluminium Sheet, Developments in the Forming of. By G. W. Eldridge ..	71-77	M		Stress-Relieved Aluminium Alloy Plate for Aircraft. By A. J. Clark, A. R. Martin and L. E. Steele ..	55-64
Aluminium-Zinc-Magnesium Alloy, The Mechanism of Stress-Corrosion in a High-Purity. By E. N. Pugh and W. R. D. Jones ..	3-6	Mechanism of Stress-Corrosion in a High-Purity Aluminium-Zinc-Magnesium Alloy, The. By E. N. Pugh and W. R. D. Jones ..	3-6	Structural Factors Affecting the Creep Properties of Precipitation-Hardened Nickel-Chromium Alloys. By W. Betteridge ..	79-85
Annealing Pearlitic Blackheart Malleable Iron Castings ..	115-116	Molybdenum, The Adhesion of Sprayed. By R. T. Allsop, T. J. Pitt and J. V. Hardy ..	125-131		
Anodic Oxide Films on Aluminium. The Scope for Further Study of. By G. C. Wood ..	221-222	N		T	
B					
Brazing Alloys, Special Purpose. Economies in Time and Equipment Facilitated ..	142-144	Nickel Brasses, Pressing and Sintering of. By J. Wilcock and R. J. Woolfall ..	167-173	Tensile Properties of Quenched and Aged Aluminium-Copper Alloys Containing 3 and 4.5 wt.% Copper, The Effect of Manganese on the. By V. B. Ghate and D. R. F. West ..	269-272
C					
Constitution of Quaternary Aluminium-Copper-Magnesium-Silicon Alloys at 500° C., The. By D. P. Smith ..	223-231	Nickel-Chromium Alloys, Structural Factors Affecting the Creep Properties of Precipitation-Hardened. By W. Betteridge ..	79-85	Thermal Treatment on the Constitution of 80-20 Nickel-Chromium Alloys Hardened with Titanium and Aluminium, The Effect of. By E. A. Fell ..	157-166
Creep Properties of Precipitation-Hardened Nickel-Chromium Alloys, Structural Factors Affecting the. By W. Betteridge ..	79-85	80-20 Nickel-Chromium Alloys Hardened with Titanium and Aluminium, The Effect of Thermal Treatment on the Constitution of. By E. A. Fell ..	157-166	Transition Temperature of Mild Steel, The Effect of Plastic Deformation and Strain Ageing on the. By T. R. G. Williams and D. H. Hughes ..	233-237
P					
Pearlitic Blackheart Malleable Iron Castings, Annealing ..	115-116	P			
Physical Properties and Constitution of Liquid Slags. By B. T. Bradbury and D. J. Williams ..	19-24	Pearlitic Blackheart Malleable Iron Castings, Annealing ..	115-116		

	Page		Page
LABORATORY METHODS			
Anodic Conversion Unit, Some Studies of the Performance of the K.1000 Cathode Ray Polarograph and Associated. By J. O. Howden and G. F. Reynolds	253-260	Spectroscopies in Metallurgical Research, New. Experience with an X-Ray Fluorescence Spectrometer and a Solids Mass Spectrometer. By K. M. Bills	45-52
Bismuth, Electrolytic Polishing of. By G. A. Hare and H. D. Mallon	208-209	Stereoscopic Microradiography. By W. M. Williams	95-101
Cathode Ray Polarograph and Associated Anodic Conversion Unit, Some Studies of the Performance of the K.1000. By J. O. Howden and G. F. Reynolds	253-260	Tensile Testing Apparatus, An Improved. By N. C. Balchin and B. L. Mordike	313-314
Chemical Polishing of Lead and its Alloys. By R. C. Giffkins	209-210	X-Ray Fluorescence Spectrometer and a Solids Mass Spectrometer, Experience with an. New Spectroscopies in Metallurgical Research. By K. M. Bills	45-52
Cobalt in Nickel Alloys, The Spectrophotometric Determination of Major Amounts of. By N. M. Silverstone and B. B. Bach	205-207	PLANT AND LABORATORY DESCRIPTIONS	
Copper in Type Metals and Lead-Base Babbitts, Rapid Estimation of. By James Brinn	52	B.I.C.C.'s New McFadzean Laboratory Opened. Cable Research	265-268
Diamond Compound, Polishing with. New Applicator Eliminates Waste	101-102	Cleaning Diesel Engine Cylinder Head Castings, Molten Caustic Bath Installation at Leyland	173-174
Edge Preservation During Metallographic Polishing. By J. T. N. Atkinson and C. A. Godden	151-152	Cold Forging, Installation for the Preparation of Steel Blanks for	189-190
Electrolytic Polishing of Bismuth. By G. A. Hare and H. D. Mallon	208-209	Cold Rolling Medium-Width Steel Strip. Consistent Quality is Brinsworth Aim	213-216
Hyplicator-Polishing with Diamond Compound. New Applicator Eliminates Waste	101-102	Computer-Controlled Oxygen Cutting Machine Installed in Shipyard	242
Lead and its Alloys, Chemical Polishing of. By R. C. Giffkins	209-210	Combustion Research, New Shell Laboratory at Egham	7-10
Lead-Base Babbitts, Rapid Estimation of Copper in Type Metals and. By James Brinn	52	Diecastings, From Textiles to Conversion of a Redundant Cotton Mill	11-14
Metallographic Polishing, Edge Preservation During. By J. T. N. Atkinson and C. A. Godden	151-152	Extrusion of Copper, Mechanisation in. 1,700 ton Press Installation at Froghall	239-241
Micro-Hardness Testing, The Use of the Inverted Microscope for Series. An Application to Dilute Lead-Antimony Alloys. By E. J. Hooker	315-317	Leyland Molten Caustic Bath Installation, Cleaning Diesel Engine Cylinder Head Castings	173-174
Microradiography, Stereoscopic. By W. M. Williams	95-101	London Transport, New Laboratory for Improved Facilities for Scientific Services	185-188
Nickel Alloys, The Spectrophotometric Determination of Major Amounts of Cobalt in. By N. M. Silverstone and B. B. Bach	205-207	Mechanisation in Extrusion of Copper. 1,700 ton Press Installation at Froghall	239-241
Physical Society Exhibition, Exhibits of Metallurgical Interest at the. 102, 153-154, 261-262, 210, 314, 318		Millom, New Blast Furnace Blown-in at. Special Quality Pig Iron Production	273-275
Polishing with Diamond Compound. New Applicator Eliminates Waste	101-102	Oxygen Cutting Machine Installed in Shipyard, Computer-Controlled	242
Solids Mass Spectrometer, Experience with an X-Ray Fluorescence Spectrometer and a. New Spectroscopies in Metallurgical Research. By K. M. Bills	45-52	Pig Iron Production, Special Quality. New Blast Furnace Blown-in at Millom	273-275
Spectrophotometric Determination of Major Amounts of Cobalt in Nickel Alloys, The. By N. M. Silverstone and B. B. Bach	205-207	Sintering Plant at Workington, New Ore	15-17
		Shell Laboratory at Egham, New. Combustion Research.	7-10
		Steel Blanks for Cold Forging, Installation for the Preparation of	189-190
		Steel Strip, Cold Rolling Medium-Width. Consistent Quality is Brinsworth Aim	213-216
		PROGRESS REPORTS	
		B.N.F.M.R.A. Progress Reviewed in Annual Report. Non-Ferrous Metals Research	279-282
		Copper and Copper Alloys, A Survey of Technical Progress During 1960	132-136, 175-184
		Furnace Installations, Recent Heat Treatment. Annual Survey of Developments	283-304

RECENT DEVELOPMENTS

Aluminium Stud Welding (Crompton Parkinson)	247
Analytical Reagents (Robinson Bros.)	92

	Page
Arc-Welding Electrode (Cooper & Turner)	42
Audio Thickness Gauge (Metalisation)	147
Automatic Lubricant Injector (Foundry and Metallurgical Equipment)	250
Basin Tilter Furnace (Morgan Crucible)	250
Closed Circuit Television (Nash & Thompson)	148
Combustion Safeguard Relay (Honeywell Controls)	248-249
Compact Thermocouple Connector (West Instrument)	42
Continuous Level Indicator and Controller (Thomas Industrial Automation)	147-148
Controlled Atmosphere Box Furnaces (Ipsen)	248
Electric Measuring and Control System with True Two-Wire Working (Honeywell Controls)	310
Ferro Alloy Briquettes for Iron Foundries (Union Carbide)	250
Filtration of Spark Erosion Machine Dielectric (Stream-Line Filters)	94
Flame Failure Control (Photo-electronics)	250
Fluorprint, The (Hilger & Watts)	199
Foundry Pattern Letters (A.E.I. Plastics)	249
Guillotine Shear (Rushworth)	200
Hand Spray Gun for Cleaning and Lubricating Dies (Foundry and Metallurgical Equipment)	92
Heat Treatment Basket Grids (Ipsen)	309
Heat Treatment Baskets (Ipsen)	39
High Precision Laboratory Furnaces (Shandon)	40-41
High-Purity Mercury (Johnson Matthey)	201
High Resolution Ultrasonic Thickness Measuring Equipment (Aveley Electric)	94
High-Speed Hydraulic Presses (Dowling & Doll)	39
High Strength Steel (International Nickel)	309
High Temperature Refractory Mortar (Amber Chemical)	41
High Temperature Torch (British Oxygen)	147
Improved Nickel Plating System (Electro-Chemical Engineering)	148
Improved Nilox Apparatus (Southern Analytical)	310
Laboratory Flow Control Valve (Griffin & George)	147
Laboratory Solenoid Control Valve (Griffin & George)	40
Larger Hollow Bored Bars (Keeton)	249-250
Lightweight Cutting Blowpipe (British Oxygen)	201
Low Temperature Joining of Aluminium (Eutectic Welding Alloys)	199
Magnetic Tube Tester, Davis (Rapid Magnetic)	92
Micro-Tensile Testing Machine (Technique)	201
Mild Steel Welding Electrode (A.E.I.) (Manchester)	250
Multi-Specimen Creep Machine (Mayes & Son)	247

	Page
Nuclear Detection (Photoelectronics) .. .	247-248
Polarograph (Evershed & Vignoles) .. .	41-42
Portable Hardness Tester (Industrial Instrument Services) ..	92-93
Precision Flattening Machine for Blanked Components (Vaughan)	91
Pulse Polarograph (Southern Instruments) .. .	148
Rapid-Heating Furnace for Light Alloy Billets (A.E.I.-Birlec)	93-94
Reciprotor Vacuum Pump (Edwards High Vacuum) .. .	309-310
Recording Flue Dust Monitor (Evans Electro Selenium) ..	202
Remote-Controlled Impact Tester (Testing Machines) .. .	91-92
Seam-Welding Blanks (Johnson Matthey) .. .	310
Shell Core-maker of Unit Construction (Polygram Casting)	93
Slug Heating Furnace (Royce) ..	39-40
Small Closed-Quench Furnace (Efco) .. .	41
Stainless Steel Electrode (English Electric) .. .	91
Strippable Plastic Coating (Croda)	202
Universal Multi-Point Recorder (Honeywell Controls) .. .	201-202
Vacuum Induction Melting (Edwards High Vacuum) .. .	200-201
Vacuum Metallising (Vacuum Metallurgical Developments)	249
Vacuum Tempering Furnace (Ipsen) .. .	199-200

LABORATORY METHODS	
Aluminium Alloys Containing Bismuth, Determination of Copper and Lead in. By W. Stross, G. Stross, J. Clark and D. Lush	299-302
Bismuth-Containing Aluminium Alloys, Determination of Copper and Lead in. By W. Stross, G. Stross, J. Clark and D. Lush	299-302
Carbon and Sulphur in Steel, A Conductimetric Method for the Determination of. By W. R. Nall and R. Scholey	97-104
Chemical Saw, A. By J. E. Palmer	303-304
Cobalt in Plain and Alloyed Steels, The Spectrophotometric Determination of Small Quantities of. By A. E. Sherwood	47-50
Conductimetric Method for the Determination of Carbon and Sulphur in Steel, A. By W. R. Nall and R. Scholey	97-104
Copper and Lead in Aluminium Alloys Containing Bismuth, Determination of. By W. Stross, G. Stross, J. Clark and D. Lush	299-302
Creep and Stress-to-Rupture Testing Machine, New. By H. Robson	51-53
Creep Testing at United Steel Companies Limited. By J. D. Murray and J. Haeon	251-260
Ferro-Niobium, Steel and Permanent Magnet Alloy, Simultaneous Determination of Niobium and Tantalum in. By L. Kidman and G. White	153-156
Inter-Element Effects in X-Ray Fluorescent Analyses, A Mathematical Method for the Investigation of. By H. J. Lucas-Tooth and B. J. Price	149-152
Lead (and Copper) in Aluminium Alloys Containing Bismuth, Determination of. By S. Stross, G. Stross, J. Clark and D. Lush	299-302
Mathematical Method for the Investigation of Inter-Element Effects in X-Ray Fluorescent Analyses, A. By H. J. Lucas-Tooth and B. J. Price	149-152
Niobium and Tantalum in Steel, Ferro-Niobium and Permanent Magnet Alloy, Simultaneous Determination of. By L. Kidman and G. White	153-156
Permanent Magnet Alloy, Simultaneous Determination of Niobium and Tantalum in Steel, Ferro-Niobium and. By L. Kidman and G. White	153-156
Solution Atomization Technique, The Spectrographic Analysis of Alloys by a. By R. A. Bingham	199-208
Spectrographic Analysis of Alloys by a Solution Atomization Technique, The. By R. A. Bingham	199-208
Spectrophotometric Determination of Small Quantities of Cobalt in Plain and Alloyed Steels, The. By A. E. Sherwood	47-50

Steel, A Conductimetric Method for the Determination of Carbon and Sulphur in. By W. R. Nall and R. Scholey	97-104
Steel, Ferro-Niobium and Permanent Magnet Alloy, Simultaneous Determination of Niobium and Tantalum in. By L. Kidman and G. White	153-156
Steels, The Spectrophotometric Determination of Small Quantities of Cobalt in Plain and Alloyed. By A. E. Sherwood	47-50
Sulphur (and Carbon) in Steel, A Conductimetric Method for the Determination of. By W. R. Nall and R. Scholey	97-104
Tantalum (and Niobium) in Steel, Ferro-Niobium and Permanent Magnet Alloy, Simultaneous Determination of. By L. Kidman and G. White	153-156
Testing Machine, New Creep and Stress-to-Rupture. By H. Robson	51-53
Ultrasonic Flaw Detection, Method of Standardisation in. By D. J. Hayes	305-306
United Steel Companies Limited, Creep Testing at. By J. D. Murray and J. Haeon	251-260
X-Ray Fluorescent Analyses, A Mathematical Method for the Investigation of Inter-Element Effects in. By H. J. Lucas-Tooth and B. J. Price	149-152
X-Ray Fluorescent Analysis of Metals	53-54
PLANT AND LABORATORY DESCRIPTIONS	
Alcan's Unique Teleprinter Network	36
Billet Heater (Electric) for Austin	287
Cambridge Instrument Company, New Assembly Wing for Continuous Casting of Copper Alloys	239-240
Creep Testing of Power Plant Steels	83-85
Eight Bells at Forge Lane	233
Electrically Operated Travelling Ore Unloader for Cargo Fleet Iron Works, New	76-78
English Steel Corporation Developments	86-87
Furnace Research and Development (AEI-Birlee)	79-82
Lacquered (and Anodised) Aluminium Strip, Manufacture of	281-285
National Physical Laboratory Extensions	232-233
Plating (Automatic) of Motor Cycle Wheel Rims	237-238
Refractory Insulating Bricks and Special Shapes, Making	220-222
Stress-Relieving Furnace, Gas-Fired	274
Stress-Relieving (Reactor Vessel) on Site at Hunterston	185-188
Teleprinter Network, Alcan's Unique	36
Whiteheart Malleable Iron Castings, Continuous Furnace for Annealing	235-233
Wire and Rope Research. New Centre for British Ropes, Ltd.	310-312

PROGRESS REPORTS	
Steel Castings Research	126-131
Steel, Making, Working and Testing of. B.I.S.R.A. Research on Show at Sheffield	31-36
SHORT ARTICLES	
Automated Anthracite Process Saves Waste	238
Helical-Weld Aluminium Pipe	115-116
National Physical Laboratory Open Day	27-30
Power Link (400kV.) Across the Thames	176-178
Precision Orbital Welding Method, New	22
Steel, A New High Temperature Steel Foundries, Conditions in	222
Welding Method, New Precision Orbital	22
NEWS AND ANNOUNCEMENTS	
A.D.A. Directory of Members	38
AEI-Birlee Order from Czechoslovakia	70
A.E.I.'s First Scientific Film	30
A.E.I. Order for Steelworks	189
Aeroplane for Davy-Ashmore Executives	191
Air-Propane for Rail De-stressing	240
Aluminium Aerials for Light-houses	85
Aluminium for Architects	82
Aluminium for Building	242
Aluminium Ltd's German Expansion	277
Aluminium Production Development	280-290
Atlas Steel Awarded Indian Know-How Contract	266
Beilby Medal and Prize, 1961	37
Beryllium Monitor U.S. Success	25
B.I.S.R.A. Conference	39
A B.I.S.R.A. Research Section Renamed	290
Blast Furnace Record	231
Blast Furnace Refractories	37
B.S.A. Tools—Metachemical Link-Up	140-141
Cambridge Instrument in Italy	286
Canning's Scottish Branch	273
Carborundum's Golden Jubilee	236
Carburised Rock Drilling Rods	106
Cathodic Protection Course	241
Changes in B.S.I. Structure	290
Coated Titanium Anodes Agreement	125
Computer Controlled Oxygen Steel Plant	189
Conference on Hydrogen in Steel	141
Continuous Casting Plant for T.I. Contract Heat Treatment	277
Co-operation in Casting Design	91
Corrosion Science	189-190
Course on Engineering Materials	190
Davy-United Mill for Park Gate	289
Die Casting Discussion Group	224
Dorman Long Development	131
Eco Vacuum Furnace Division, New	216
Electric Billet Heater for Austin	287
Electric Steel Makers' Guild	25
Elliott-Automation Analysis Dept.	178
European Aluminium Consumption Doubled by 1970	39
European Non-Ferrous Trends	2
Expanding Use of Galvanizing	2
Exporting by Air	178
